

The Cerebrals Society

Founded in 1999 by Xavier Jouve

Application Form

This form is to be completed in order to apply for membership or subscribership in *The Cerebrals Society*.

Before applying, be sure to have taken a test considered acceptable by the society psychometrician. The updated list is provided in the admission page of cerebrals.org, the official website of the society. If necessary, you could access this page whenever you want at <http://www.cerebrals.org/enter.htm>. The current list as provided by Table 1 has been established in 2008.

If you have a score that qualifies you, please proceed to the following page to fill in completely the application form.

If you're looking for an online test, you may wish to take the *Cerebrals Cognitive Abilities Tests (CCAT)* that can give an accurate estimation of your crystallized-educational related cognitive functioning level. By the way, we don't accept it as an admission criterion.

<http://www.cerebrals.org/tests/ccat/>

Table 1 – Membership Admission tests

(see the website for subscribership required scores)

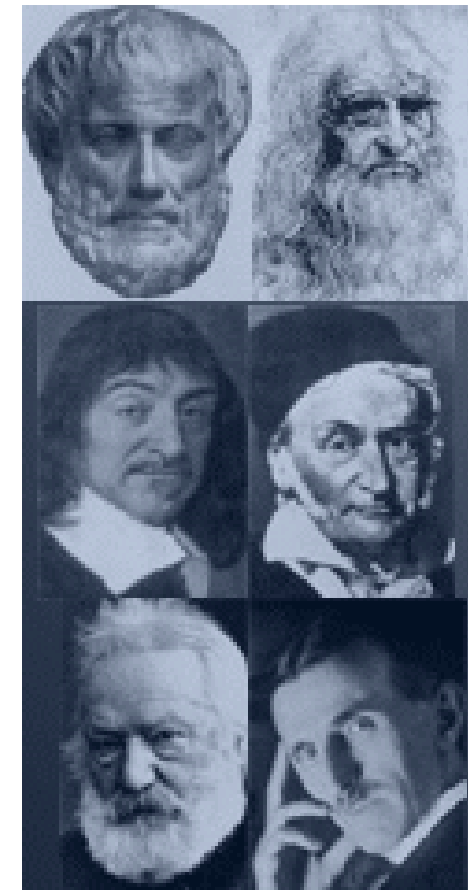

Test	Required Raw Score	Required Standard Score
CFIT Scale II or III (IQ)		144
